

SHOE JUMP!

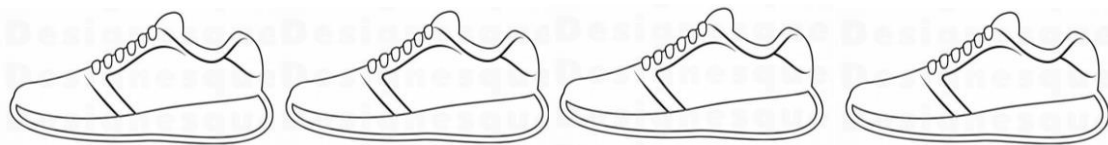

Today your challenge is to see how many shoes you can jump over when they are lined up end-to-end!

Grab a pile of shoes (they don't even need to be pairs!)

Start by running and jumping over 1 shoe. Easy?

Lay another shoe with it, with the toe of one shoe touching the heel of the next shoe. 2 shoes easy?

Add a 3rd. Then a 4th.... HOW MANY SHOES CAN YOU JUMP OVER?

Have fun! Mrs Simmons
