

Remote Learning – ZOOM meeting arrangements.

Please find the meeting number and the password for each grade level. Simply join the meeting at your grade time using this information. There is a timetable for when staff will be running their ZOOM meetings, and if there are any extras or changes they will notify you. It also gives the days staff are in supervising at school. They will still run whole grade ZOOM meetings on those days.

These meetings will mean children touch base with their teachers each day. Teachers will use the ZOOMS to discuss work and the expectations on children, as well as do some focused teaching. From these meetings, teachers will ask children to join a smaller meeting at a later time, or to hang on after everyone has left. This would be to explain a skill or concept further. Anytime students or parents need assistance, an email, text or message via the uEducateUs App they will gain a response. This may mean a special ZOOM meeting, Facetime or YouTube clip the teacher has prepared to cover the topic. **JUST ASK.**
